**Class 9: Architectural Models**

A: Architectural Models: The Architectural Models project is designed to allow members to create 3 – dimensional models. These models should be constructed using blocks or similar pieces (i.e. Legos<sup>®</sup>).

- i. Projects constructed using blocks or similar pieces (i.e. Legos).  
Kits may be used for the Junior and Intermediate Levels only.  
Please read and study the project level requirements below.
- ii. Each year a different and more advanced architectural model should be chosen to show progress over the year before.
- iii. Members are limited to one (1) exhibit per year. Members will exhibit based on the divisions listed below.

**JUNIOR – Ages 8-10**

Construct items using up to 1,500 pieces or blocks. Kits are permitted. Motors are not permitted in this level. Item must be displayed on a board of at least 1/4" thickness. Board may be finished and a "theme" may be used. The project size must not exceed 24 X 24 X 24 inches. If a cover is used, it must be removable and the overall project size including cover must not exceed the size limitations.

**INTERMEDIATE – Ages 11-13**

Construct an item or scene using unlimited pieces or blocks. Kits and motors are permitted. Item must be displayed on a board of at least 1/4" thickness and a "theme" may be used. The project size must not exceed 30 X 36 X 36 inches. If a cover is used, it must be removable and the overall project size including the cover must not exceed the size limitations.

**SENIOR – Ages 14-18**

Construct an item or scene using unlimited number of pieces or blocks. Kits are not allowed but motors are permitted. Item must be displayed on a board of at least 1/4" thickness and a "theme" may be used. The project size must not exceed 30 X 48 X 48 inches. If a cover is used, it must be removable and the overall project size including the cover must not exceed the size limitations.
