Purpose of Attendance: CEUs only Testing **Pesticide License #** _____

Return by mail or fax (850) 689-5727

Sheila Dunning, 3098 Airport Rd Crestview, FL 32539

You will get a professional edge too. Being licensed means complying with the law – but it also means you can run your business better and smarter. The licensing courses will provide you with information you will use every day – on issues like laws, safety, labeling, and integrated pest management.

Even more, having a license will give you extra credibility with your clients, since they will know you have the expertise to maintain their property, and the environment, too.

For information call:

Sheila Dunning
UF/IFAS-Okaloosa County
Commercial Horticulture Agent
Email: sdunning@ufl.edu
(850) 689-5850

To register, fill out and return the attached form.

******Make sure Certificate of Insurance has certificate holder as FDACS!***

Getting you the license you need is our business.

**Thursday, April 26, 2018
Okaloosa County Extension
3098 Airport Road
Crestview, FL 32539**

**Earn the required CEUs to
renew a current
Limited Lawn and Ornamental or
Limited Commercial Landscape
Maintenance certification
and other categories.**

**You can earn your
Limited Pesticide license.
Our County Extension Office
can help.**

Is it the license you need?

If part of your business is applying herbicides (including Roundup) or certain pesticides to plant beds, the State of Florida requires that you have a limited pesticide license. Operating without one could mean a \$5,000 fine. Even more, it could increase your liability in case of an accident.

To become licensed, you need to take a 6-hour course and a written exam. If you are like many people, taking the time and money to go through the course, especially if you are uncomfortable with taking the exam, is really difficult. Therefore, you put it off, again and again.

County Extension can help.

Because we have access to all the University's resources, we can give you the very best instructors and programs.

Extension will make the 6-hour limited pesticide course easy, interesting and useful.
