

Molly Jameson

**Extension Agent I, Leon Sustainable Ag and
Community Food Systems**

(850) 606-5202

mjameson@ufl.edu

615 Paul Russell Road

Tallahassee, FL 32301

Educational Program Focus:

- **Community Food Systems Education**
Provide educational programming related to sustainable agriculture and food systems to the Leon County community, including best management practices, production, harvesting, marketing, and sustainability issues.
- **Urban Agriculture Educational programs**
Educate Leon County Library patrons about growing nutritious produce through work-shops, presentations, and hands-on activities on raised beds, composting, seeding, transplanting, seed saving, and other gardening techniques to promote self-reliance.
- **Develop Food Systems and Entrepreneurship**
Work with established Food Systems and community leaders to assist in the development of community-supported agriculture, community gardens, food hubs, farmers' markets, new farmer programs, farm management practices, food-based businesses, and agri-tourism opportunities.
