2010 County Impacts and Outcomes

Educational Program Focus:

- **Family Nutrition Program** - Provide nutrition education lessons to 1,800 students and parents at 6 local schools. Partner with Sodexo school food service, County Health Department, 4-H and local schools to achieve the “Gold Award of Distinction” for 14 schools through the Healthy US Schools Challenge.
- **Family & Consumer Science** - Offer community nutrition/food safety education programs including participation in Farm-to-City Week and partnership with Health Department and local physician to reach obese patients and families.
- Promote child passenger safety by instructing new technicians, providing technical updates, facilitating quarterly meetings and assisting parents with car seat installations.
