84 Cedar Avenue

Crawfordville, Fl 32327

Residential Horticulture

Provide leadership, support, and educational programming to Wakulla County residents in the maintenance of residential landscaping.

Urban Agriculture/Small Farms

Enable Wakulla locals to establish and develop community gardens to increase the amount of fruit and vegetables produced and consumed. Assist with community access to educational programming on sustainable agriculture, with a focus on small farms including best management techniques, production, harvesting, and marketing.

Natural Resources

Provide individual consultation for producers within Wakulla County to optimize the utilization of natural resources.
