Faculty Support and Development in the Northwest Extension District

To support faculty Extension work, I develop and secure resources to assist faculty in their day-to-day work. To guide faculty through the University of Florida permanent status and promotion system, I develop resources and teach topics on program planning, evaluation, and reporting. I work closely with County Extension Directors to recruit, on-board, support, and retain quality Extension faculty members. I also work with the other District Extension Directors and the Dean of Extension to support the [mission of UF/IFAS Extension](#) to develop knowledge and to make that knowledge accessible to enhance the lives of Floridians.

Work Experience

2023	UF/IFAS Extension	Interim District Extension Director
