

County Extension Director/4-H - Leon
Northwest Extension District

Profile

As the County Extension Director in Escambia County, FL, I am the administrative leader for a team of faculty, program assistants, and staff for Escambia County Extension. I continually work to increase outreach, collaboration, and professionalism in our local impacts. I serve the Escambia County Board of County Commissioners to provide superior customer service to residents.

As the Commercial Livestock Agent, I provide programmatic expertise in the areas of beef cattle reproductive management, breeding systems, and nutrition. My program also includes small ruminant production, including sheep and goat production.

Educational Programs

Escambia County Commercial Livestock, Ag Awareness Education and 4-H Youth Livestock Development: This program provides practical, researched-based educational programming to increase production and profitability for livestock producers in Escambia County. I demonstrate applicable production practices of both large and small farm clients in a variety of agriculture enterprises. My duties also include support of the growth and success in the 4-H youth development program, primarily in youth livestock programs.

Escambia County Extension Leadership and Community

Development: This program focuses on providing guidance and vision for programmatic planning and serve as the liaison between faculty & staff, county government, and university administration. I am also responsible for the Extension budget as well as the Escambia County Extension Center facilities. Other duties include faculty and staff training, appraisals, marketing, program planning, resource allocation, customer satisfaction, and advisory group training. These duties represent a considerable amount of coordination, supervision, evaluation and leadership, and intensive organization, time, and resource management.
