

Anitra Mayhann

Gulf County Extension, 4-H and Family & Consumer Sciences Agent I

Northwest Extension District

Profile

As the Gulf County Extension Agent I, covering areas of 4-H Youth Development and Family and Consumer Science, it is my responsibility to plan, implement and evaluate educational programs for youth and adults in Gulf County. My leadership involves recruiting, training, and retaining volunteers for 4-H and Family Consumer Science programs and activities.

My areas of specialization are positive youth development, animal science, healthy living, and community resource management with emphasis in communication. I provide opportunities for youth and adults to learn and life skill development using a wide variety of methods and strategies enabling them to become contributing members of society and knowledgeable in leading health lifestyles.

Educational Programs

4-H Volunteer and Positive Youth Development:

Volunteer development in Gulf County works to recruit adults who want to make a difference in the lives of youth and build healthy relationships where youth feel safe, supported and encouraged. 4-H positive youth development, life skills are developed in youth through subject matter experiences in clubs, school enrichment and day camp involvement.

Family and Consumer Sciences:

Participation in Gulf County FCS focused UF/IFAS Extension activities engage youth and adults in many aspects of learning and staying active, giving them knowledge and experiences that help foster a healthy lifestyle. These methods are meant to engage the learners, allowing them to increase their knowledge of healthy practices and to initiate positive behavior change that will impact their lives and their families.
